

Pramila

Web Developer with over a year of experience in front-end and back-end development. Skilled in HTML, CSS, JavaScript, React, Node.js, and MySQL. IBM-certified in Web Development, with a focus on building responsive and user-friendly applications. Strong problem-solving and teamwork skills, always eager to learn new technologies. Currently learning the MERN stack (MongoDB, Express.js, React, Node.js) to improve full-stack development skills. Excited to work on new projects and contribute to a team.

Work Experience

Associate – Software Developer

PLC Technologies Dec 2023 – Present

Projects

Kids Play Zone Management System

Technologies Used: HTML, CSS, JavaScript, MySQL, PHP

- Developed a web-based application to efficiently manage and store details of children visiting a play zone.
- The system records essential details such as the child's name, age, parents' contact information, and entry/exit times.
- Integrated a database using MySQL to store and retrieve visitor records, ensuring data security and quick access.
- Provided an easy-to-use interface for staff to input and manage visitor details seamlessly.

Learning Platform for Admins and Learners

Technologies Used: HTML, CSS, JavaScript, MySQL, PHP

- Created a web-based learning management system with role-based access for Admins and Learners.
- Admins can securely log in, upload learning documents, and manage educational content.
- Learners can register, log in, access study materials, and participate in assessments.
- Built a structured database in MySQL for storing user profiles, learning materials, and assessment results.

Restaurant Management System

Technologies Used: React, Node.js, CSS, MySQL

- Developed a web application to streamline restaurant operations for staff and customers.
- Waiters can manage table orders, track order status, and update real-time changes.
- Chefs can view and close orders once prepared.
- Customers can explore the menu and make reservations.
- Implemented a MySQL database to store and manage restaurant data efficiently.
